Never Leave Your Data Behind Again

A Briefcase Backup Gives You Access To Your Data Anywhere

No matter where you go or which computer you use, [TAPNET's Briefcase Backup service](#) allows you to access your personal computer data so that you can always have your home and/or work computer data with you while leaving the actual computer at home.

How It Works

After signing up for TAPNET's Briefcase Backup service, you'll receive a new drive for your computer, which will sync your files online. Basically, all of your computing will go into that "cloud" that everyone's been talking about for the last couple of years.

If you do a briefcase backup on your home computer, for instance, all of your photos, emails, music and personal documents will be uploaded safely and securely online. The next time you're traveling and want to jam to one of your favorite playlists, just go online to TAPNET, put in your password, and Wha-La, your music will be waiting for you.

Briefcase Backup Benefits

The ability to take all of your data to any computer or device with an Internet connection means you have [constant access to all your files](#) no matter where you go in the world. Desktops cannot be brought on trips. Laptops can be heavy and cumbersome. Jump drives and CDs can get lost, broken or damaged. A briefcase backup allows for you to travel light and keep your data safe from the many risks of travel.

In addition, a briefcase backup functions like a normal [data backup](#), meaning your files are safe in the event of a data loss event. If a computer is lost or destroyed, all your data will still exist on TAPNET's servers. Just put in your password, and you'll be back up and running in minutes.

Safety

Even though a briefcase backup means that your files will be traveling to the online world, they'll still be safe and secure. All your data will be encrypted before being uploaded to TAPNET's servers, and only your password (which you create) will allow you to access them.

Have we gotten you curious enough to [give a briefcase backup a try](#)? If so, you're in luck. TAPNET is offering a [30 FREE trial of the Briefcase Backup service](#). Sign up and see what it's like to have your computer data with you everywhere you go.
